## CONDITION OF THE MARKETS

Fair Business in Wheat, Accompanied by a Somewhat Unsettled Feeling.

Corn Strong on Moderate Trading, the Range Being Narrow-Oats Dull and Featureless -Provisions Very Dull and Easier.

MONEY, BONDS AND STOCKS.

An Irregular, Unsettled by: Leverish Market in New York. NEW YORK, Sept. 12.-Money on call was

easy at 1 22 per cent. Prime mercantile paper, 526 per cent. Sterling exchange was dull but steady at \$4.842 for sixty-day bills, and \$4.88 for demand. The total sales of stocks to-day were 244,396 shares, including the following: Delaware, Lackawanna & Western, 11,300; Erie, 8,171; Lake Shore, 12,710; Norfolk & Western, 4,378; Northern Pacific, 3,078; Northern Pacific preferred, 8,270; Oregon Transcontinental, 17,170; Reading, 1,500; St. Paul, 26,145; Texas Pacific, 7,678; Union Paific, 5,670; Western

Union, 18,060; Northwestern, 13,575. The stock market was somewhat less active to-day, and irregular, unsettled and feverish throughout, with the general tendency of prices in a downward direction. The uncertainty in regard to the St. Paul dividend was the controiling cause of the unsettled feeling, and there was a marked indisposition to make new ventures, while old accounts were closed up in many cases on both sides of the account. There was considerable pressure to sell in the early dealings, which was directed principally against the grangers, and the rest of the list sympathized closely with the movement. A reaction was brought about by receipt of rumor that Chicago, Burlington & Northern had agreed to join the Central Traffic Association, but this was afterward neutralized by denial of the rumor from Chicago that Western connections of the Pennsylvania had reduced rates on grain, which put a damper on the bullish feeling. There was very little movement in the usually active list, except the grangers, though New England was more active than usual and was conspicuously well held when the rest of the list were weak and declining. There was a great deal of talk on the street, but the general belief was that the "shorts" in it were being twisted, though the stock fluctuated only & per cent. for the entire day. The coal stocks were quiet throughout and attracted very little attention, while the most marked movements were in the low-priced shares, and Chesape ake &Ohio was especially active and strong. each kind of stock rising nearly 2 per cent. London prices came higher this morning, and foreigners were buyers at the opening, which made first figures from 1 to 2 per cent, above last evening's prices, but the pressure to sell quickly forced the list off, the grangers taking the lead, though Lackawanna and Lake Shore were also weak. The movement was over, however, before the end of the first hour, and some of the specialities were strong all the way out. On the rally which followed before noon, Northwestern led the advance and most of the list were brought up to the neighborhood of first prices, but the subsequent movements were slight and irregular, and in the last hour the market became quite weak throughout, and the close was dull and heavy at small declines for the day. The changes are almost invariably in the direction of lower figures, though Hocking, which lost 1; per cent., was the only important decline.

The railroad bond market was fairly active,

the total sales reaching \$1,672,000, out of which \$142,000 were in Fort Worth & Denver firsts, \$125,000 in West Shore fours, and \$107,000 in Green Bay incomes. The tone of the market was strong almost throughout, and while there were some declines most of the list are materially higher this evening. The features of the trading, besides the issues named, were Chesa-peake & Ohio issues and Reading incomes. Houston & Texas general certificates rose 2, to 721: New Jersey Midland firsts, 2, to 115, and Richmond & Alleghany receipts, 2, to 59. Among the losses were Pensacola & Atlantic firsts, 2, at 94, and Omaha & St. Louis firsts, 1, Government bonds were quiet and strong.

State bonds were entirely neglected. Closing

CHICAGO, Sept. 12.—There was a pretty fair trade in the aggregate in wheat, though at times the market ruled quiet, while the feeling was more or less unsettled. Nevertheless, there appeared to be more disposition to buy: at least operators manifested confidence. There was fair outside buying, though many parties are of opinion that the trading was largely on local account. The opening was weak. Prices almost immediately touched a point to below yester-day's close, influenced by the dull and weak tone of foreign advices, reported fine weather abroad and an estimated increase of 1,460,000 bu of wheat on ocean passage. At the reduction good buying checked a further decline. Quite a number of outside orders were received, and some buying was credited to foreign account, though the amount was not large and claimed to have been on Canadian account, taken for small reaction. The demand, nevertheless, had a strengthening effect, as did also a report that the French President had submitted a resolution to the Chamber of Deputies asking a reduction of the duty on wheat. Prices were advanced 1 c, then receded to, and closed tolo digher than yesterday at 1 o'clock. Near the close a rumor was circulated that the Canadian government was contemplating the removal of its wheat duty, which caused a scramble to buy, and an advance. There were few, if any, new influences in the corn pit. The trade in futures was governed somewhat, as on Tuesday, by a demand for cash corn. To this was added on the "bull" side some reports which gave rise to fear of frost. The market was strong all day. though the range was narrow. The closing price of October was ic better than last night; May closed at 39fc, showing an equal advance with early futures. Oats were very dull, and at times almost neglected by the speculative traders. in provisions business was dull. Pork opened at \$14.35 for October, 5c under last night's close, and declined another 10c. January sold down to \$13.95, a loss of 7ic. Lard was quiet and a shade easier. October short ribs showed a loss of .15c, while January scored a small gain. At the afternoon session wheat was irregular, December sold up to 921 2 921c, off to 91%c, closing at 91% 391%c. Corn was quiet and easy; October closing about ic lower than at 1 o'clock. Oats remained steady. Pork closed 2 c easier for September and October, with January unchanged. Lard was strong for October, which rose .02ic, though January was .02 to easier. Short ribs were quiet and steady, but without quotable change. The leading futures ranged as follows:

INDIANAPOLIS MARKETS. Increasing Activity, Firm Prices and a Cheer-

ful Feeling Noticeable.

INDIANAPOLIS, Sept. 12. In all departments the volume of trade is steadily increasing and firm prices rule all along the line. Dry goods men are having a fine trade and the boot and shoe men report business excellent. Leather dealers say that their trade is improving. Druggists are busy. Iron and hardware dealers speak of their business as remarkably good for September, and grocers and produce men report trade ahead of the corresponding period last year, and with this a confident feeling prevails which is unusual in the year of a presidential campaign. In prices to-day there were but few fluctuations. Sugars move up another one-eighth of a cent, and East all sugars, except hard are reported to be very scarce and no orders will be filled until next week, consequently Western wholesale men are very "bullish" in their talk. Coffees, as well, are very firm and advancing in their tendency. Coming to the produce markets, firmer prices are ruling on many articles, eggs, poultry and butter all being in good demand at our best quotation. Apples, peaches and pears, as well, are firmer in tone, and the receipts are not largely in excess of the present demand Potatoes, and in fact all kinds of vegetables are in good supply of home production, and prices vary with the quantity which comes on to the market, often selling 25 per cent. lower in the afternoon than before noon. The seed market is very active and prices strong. Provisions rule firm at the advanced prices of Tuesday. The wool market is a little off, prices ruling weak but unchanged. The flour market is active and better prices on some grades are readily realized. The break in rates east-bound will

likely move any surplus stock held by the mill-
